MEMORANDUM FOR: Vince Heyman
Chief, CIA Operations Center

FROM :
Assistant Legislative Counsel

25X1

SUBJECT : Follow-up Items from 14 September Senate
Select Committee on Intelligence Briefing on
the Kampiles Case (U)

1. (S) The Director was asked several questions at the 14 September SSCI briefing on the Kampiles case which require follow-up responses. The ones we need your assistance on are the following:

a. Senator Bayh asked about the inventory of Operations Center documents and was told it appeared seven or eight were missing but we were not sure which ones. The Director promised to provide a list to the Committee.

b. Senator Bayh asked for a more detailed response on what materials were available to Kampiles in the Operations Center.

2. (C) I would appreciate your responses by 29 September. I have also asked for Office of Security help with these two questions. Please consult with that office and send me a coordinated response. Thank you very much.
